Gary,

Is the Corps looking at alternatives to prevent damage to the waste pits?

What about alternative to prevent releases that we want the PRPs to implement to ensure that the pits are protective until the final remedy is implemented.

Carl/Pam, want us to proposed (direct the PRPs) on fixes that must be made to prevent releases. I

believe you are working with the Corps on some of this. Do we have some alternatives or ideas from the Corps? Thanks CAS

Carlos A. Sanchez
